THE FUTURE TEMPERAMENT!

TK RAMCHAND

Too impossible it is to improve

The MAN who objects to think, to disprove!

Would argue, the hare they caught had horns three!

Thinking mind's pain!

Whatever I wanted to say, I say,
And that too I say, in my own way!
Points same, now 'nd then, I'll repeat, so that 't may
Compel readers think 'f affairs of the day!
Neither prose nor verse or poem either,
Mere feelings, that's all what's this; I hither
Serve it in the way I know; all the Man
Should understand it, that's my only aim!

Thinker thinks and makes you think, great truth'.
Let humanity imbibe, that which's worth!
Don't believe blindly, whatever blunders
Come from Plunderers' mouths – wonders, thunders!

Being pained to see the blunders performed,
Able not to feel the meanings informed,
Eager to find answers to questions -
Raised by the true ferreting mind's actions,
Humbly I present these problems to you
And expect to hear the replies from you!
Read, read and think, and read again to think
Save yourself from superstitions, don't sink

To the priest, sermonizing, asked the child
Innocent! Alas! Strange, the priest turned wild!
For, he couldn't answer Sunday school question
Put, "What was Adam's and Eve's religion?"!

Christ didn't use gold or silk, throughout life.
Why, 'assistants' wear gold crowns, silk robes…?! Strife!
Stuff of present religions, a legion,
Can't give salvation, without Man's union!

Words, other than English, which are not self explanatory in "AHH! WHAT A WORLD!" are, explained on page 55.

Tricks tantalizing!

Catching captive, most humble innocent-
One dove the winged: isn't it sin incessant,
Man the terrific, commits extempore!

Horror-stricken, wriggling struggling, explore
A lot, begging to monster, to be freed:
Tired it fell: but, he didn't even care heed!

"One, not sufficient: should be exactly
Ten thousand 'nd one, to be flown 'knackfully'
That day, by leaders, – Man's pulse feelers, guys:
A show of flight: yonder, into deep skies!"

"Is it by cruel incarceration:
The Independence-day celebration
To be made an extravaganza, great!
Having not even an organ to fight
At least for self-defenc(s)e, when these harmless,
Guiltless suffer, why confine us: harass!
Is't, hono(u)rable life-hurters' fashion
Of Independence-day celebration!
In Independence-day celebration's
Name, aren't you, making real negations
Of our independence, always, a tool:
And succeed in mo(u)lding the man a fool!
Praising us as the great symbol of peace
Haven't you animals, thrown smashed our own peace?"

If Man would not think before act, it's fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man's incompetence!

Wreck, the kept concealed deceptive contents
In the meaningless misdeeds, these fellows
Manipulate: that common man swallows!

Then and now, we are fools: that's history!
To make man fool, manipulate treach'ry:
But, sacrifice of, Innocents, that's scare!
Only, love that shun superstitions, pure!

((((((((((O))))))))))

Then and now!

Slaves! Slaves! Slaves! We were really then: fought we!
For our independence total, fought we!

Only one aim, independence: they fought
With prowess great: had no other thought!

MP or MLA or Minister:
Dreamt not they, then, office of high hono(u)r!

Could they be alive or not, the next day:
Even their existence doubted they!

Never, the men great, yearned for rank high:
Only to have hono(u)r, not to be shy!

During their lifetime, will it happen?
Oh! Never did they knew, anything then!

Even pledging life, fought they: selfishness
Never touched them: needed no selfishness!

"Selfishness 'sindabad'," slogans such kind,
Never gnawed in into nobody's mind!

Disappeared the sanctified modesty,
Disappeared, the conscience, the honesty!

Politics! Vanished that, dead, on pyre, lost:
In drizzle, sprouted toxic fungus vast!

Freedom got, plunged into duplicity,
Leaders a lot, spread neo-stink, misty!

'Sindabad' only selfishness, always;
Rank not got, loyalties-change enjoys!

Own wish, best wish, ifn't materialize,
They would turn Leader, splitting party strength-wise!

If needs murder, will be executed
To get rank, money, and such expected!

They have faces, two, one will be hidden,
The other always smiles, to cheat sudden!

They would incarnate as child tormentors,
As rowdies strict, as female molesters!

The hypocrites: black marketers, the vice,
Smugglers, liqueur merchants, all in disguise!

As traffickers in drugs or in women,
Gold-biscuit business magnates, common!

Forest ‘dacoity’, sandalwood removal
Sandalwood, to them nothing novel!

Foreign money inflow, through transactions
Illegal, to them, only light actions!

With underworld, many have relations:
They would meet expenses of elections!

Discipline violation, these fellows
Willingly accept and self gain follows!

To follow these rascals, there will always
Be some creatures, wagging tails in all ways!

Remember, politics not the forum
To bargain, rank or to earn money from!

Totally isolate these fellows, for
All times to come: mankind lovers, ever!

Remember, our vote is sharper than their
Pointed dagger in their hands, seem to fair!

With courage, let us move forward and not
Submit to temptations or to frights lot!

Vote, studying well the candidates:
Party ‘nd propaganda; may be deceits!
Let only good people get elected,
Others, for, ever, be terminated!

If Man would not think before act, it’s fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man’s incompetence!

Wreck, the kept concealed deceptive contents
In the meaningless misdeeds, these fellows
Manipulate: that common man swallows!

Conundrum!

Pride or prestige, don’t know which one it is,
Whatever it is, to expose it most,
Which cruel thing is useful: that is this!

We are fools, not only that, hauteur too,
Without shouting out so oneself, what thing
Proclaims that so: that cruel One that is this!

For thief, to take away after killing;
To split the husband and wife into two,
What material great helps: that is this!

Which great material that would give them
An unusual opportunity, great,
To burn her alive: really that is this!

With what material, to cheat the man,
Even gods are made, and the houses are
Constructed for them: really that is this!

Which thing helps the capitalist to earn -
Easy money quickly, to start branches
New, daily: actually that is this!

Which thing that helps smugglers, black marketers,
And bribe takers; to convert black money
Into white money: really that is this!

If for marriage, this is built in any
Metal other than this, will the couple
Won’t be blessed with offspring: question to fools!

Death of brides, because of suffocation
Due to the weight of them hanging from neck,
On the date of marriage, isn’t far away!

Only in some countries, this is having
Diffusion great; in states some, afraid they
Are, to wear this: so they wear secretly!

Those who do not wear this also do get
Married, and are not at all without child
Bearing fortune any: in course normal!

They too come out successful in many
Examinations, employment too they
Are getting in normal circumstances!

To show the staunch closeness towards the god
Is it not, in this metal, a group of -
Priests, make their crowns and symbols religious!

If some thing made in this is presented
To god, accepting the bribe happily,
Your zest will be fulfilled with contentment!

That gold that lies frozen throughout the world
In the name of religions, if it's used
Properly, world itself will turn heaven!

If gold ornaments are simply kept locked
At home, and worn only at functions where
People gather, isn't it to show others!

Oh! Conscience, earning gold adorns even
Starving: a thousand prostrations: illness
Not treated, adorns can be placed on corpse!

Oh! What name we would give this, meanness, or
Haughtiness or egotism: otherwise
Ignorance, affinity or madness!

If Man would not think before act, it's fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man's incompetence!

Wreck, the kept concealed deceptive contents
In the meaningless misdeeds, these fellows
Manipulate: that common man swallows!

Then and now, we are fools: that's history!
To make man fool, manipulate treach'ry:
But, sacrifice of, innocents, that's scare!
Only love that shun superstitions, pure!

HOROSCOPE!

Isn't horoscope, 'Future Temperament!'-
Itself? According to Astrology,
Wonder, planet's number is only nine!
Sun, Moon, *Rahu*, Jupiter, Saturn,
Mercury, *Kethu* and Venus are they!
But, is there anyone not knowing that
Sun is not at all, planet, but a Star?

Beating the ground and producing sound, with
Coconut tree leaf stalk, plantain leaf stalk
And so on, were prompted by the belief
Eclipse of sun and moon were the result
Of *Rahu*, swallowing them, *Rahu* and
Kethu being two imaginary
Planets of sin! How can non-existing
Planets influence the Man's fortune, health,
Marriage, education, the financial
Status, birth, death and things such, you tell,
You 'pure fools' of astrology the great!
When, planets really existing could not,
Then, how, something non-existent could have
Domination, over items that kind?

Even though all know, in solar eclipse
What hides the moon is the earth,
If money is not given to those who,
Shake and score by counting, tell horoscope,
What an anguish and restlessness it would be!
To know the future, to find out reason
For the hardships, sessions of the process
Are still invoked! The process invoking
God, will reveal, reason for his anger!

Lives of what a lot of youths of both the
Sexes are ruined daily by the evil –
Of '*chowwa dosham*', just to see pocket
His, bulging, they are malefactors quite
Against Humanity, pity the Man!

If correct time of birth given, quite sure,
They claim, their prediction would be correct!
That too a joke, who knows, that correct time,
Correctly, look…..when is it exactly?!

Is it, when, the baby comes to, the world
Out-side, at the time of delivery?
Or the time when the male sperm enters the
Female egg! But, the male sperm and female -
Egg, too, do have life? When doctors do feel
Danger to life, it is usual, changing
The time of birth by giving medicine!

Number of planets discovered so far
Is thirteen, but, out of them six do have
Nothing to do with man, according to
Astrology! Only Sun, Moon, Venus,
Mercury, Mars, Jupiter, Saturn and
Earth, were known to them, it seems! We can guess,
The horoscope-trick-heroes knew not the
Existence of Uranus, Neptune and
Pluto; never ends it there, Varuna,
Quaoar, 2003VB12 and
Huya planets too have nothing to do
With human horoscope! Even if we
Agree, gravitational forces and
Magnetic forces may have some kind of
Relations, difficult it is even
Just imagine what the planet's part is
In Man's fortune, marriage and the finance!

Isn't it wrong, to consider it a science?
The astrology, it's not at all science,
But, 'astro-nonsense'! Before changing the
Path of just exploring the astro-science,
And hammering, fortune, health 'nd such matters
Into it, it was a science! Cunning they,
As helping ways to find flow of money
Through cheating techniques, injected into
It, well, the mesmerizing horoscope!

Those who do invoke the fortune telling
Process and those who pen the horoscope
Would proclaim, their predictions fructified!
Wonder, even earthquakes, and heavy floods
They would predict and materialize!
Death, attaining positions, happenings
Such, of State leaders, scientists and famous
Individuals, they would, well, point out,
They had always proclaimed them in advance!
Predictions, by those who extract their means

Of living, by cheating the fools, which didn't
Materialize, when do not get the
Publicity, those materialized
Get publicity, and that's the reason
For their success! Out of ten predictions
If a mere one turns correct, that one gets
Publicity great, while the nine that had
Failed, are forgotten by man for ever
Without anybody bothering for
Knowing about the great failures major!
Just wander in the towns and every where
One could see them living in bungalows!
Giving bribes to gods, *'chowwa doshams'*
And such *'doshams'*, these intellectuals
Would get rid of them all - even, clauses
Helpful to that are present there in the
Astrology - leads them to their success!

The possibility of an increase
In the number of fools, is seen in the
Horoscope of the horoscope writers
Themselves! You escape from superstitions
You human devil dancers, you escape
From their phantasmagoria, inhuman!

If Man would not think before act, it's fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man's incompetence!

Wreck, the kept concealed deceptive contents
In the meaningless misdeeds, these fellows
Manipulate: that common man swallows!

Then and now, we are fools: that's history!

But, sacrifice of, innocents, that's scare!
Only love that shun superstitions, pure!

Fate!

Man’s invention great: great wonder indeed:
Medicine single, all diseases need:
If medicine, it should be like this one!
It’s the medicine, long ago, now on
And always gave, gives man consolation!
The most difficult work of fixation
In advance, in which and which way a man’s
Life should be, was left to god in heavens,
By the intelligent monsters, harsh men
Who created the god, the religion!
If good, anybody can be happy,
Even if it is otherwise floppy
The best way to find solace ‘n that case too!
Fate! Anybody could find comfort to
Whatever happens, and think, it is fate!
If fails, fate: if accident takes place, fate:
If handicapped baby is born, it’s fate:
Whatever may be the relation; hate -
If leads to separation, even if
It is conjugality, it’s, fate bluff:
If hit by an ox, fate: if caught fire, fate:
If drowned, fate: if lightning hits that too fate:
Even if one dies because of heavy
Drinking, then too, reason is fate shabby!

One’s fate, may become another’s fortune
Under religions, is’t too, fate, in tune!
Astrologer’s fortune: the fortune of
Those who find remedy to the sin of
People: fortune of those who sell the thing
Absolutely needed for worshipping:
Fortune of priests: fortune of religious
Heads: fortune of clergymen, poisonous:
Such kinds, how many, many fortunes!

If the one who do not work, didn’t get
The result of work, that too is fate set!
If, to those who do virtue, get only
Depravity, that too is fate solely!

If Hitler terminated, in millions,
Confining them in poison gas filled dens,
Then, that’s really the dead men’s own great fate!
If in atom bomb explosion quite right
The whole humanity there, burnt charred straight -
To nothing, then, that too, the dead men’s fate!
In tsunami violence, if many
Drowned in water: dead men’s fate so many!

At ‘Hajj’, *‘Perunnal’, ‘Kumbhamela’* and
Such kind pilgrimages, if crushed or burnt
To death the many, that too dead men’s fate!

If by the shots, from the ‘maximalists’:
Infant darlings of crèche or loyalists
Of church, well immersed in worship sincere
Or the innocents, gathered to procure
From the market, items they need from there:
Got dead, then it is really, their fate sole!

If in calamities natural, all
Together, innumerable did fall
Dead, in way same, place same, time same; happened
Those deaths, purposely in advance, god found
In search and brought them all together at
The same time, at the same place to hit at!
Isn’t it extraordinary, the god’s -
Cleverness, in program(me) making, that leads
To the organized slaughter sanctified!

If by strangling the neck of the new born
Baby, someone kills it, that too fate boon!
If someone going in the spaceship dies
At its explosion, then, there, god’s fate lies!
Whatever may be the religion, if
Places of worship are destroyed ‘n fight stiff,
Then, it is entirely that-gods own fate!
If anyone feels, if anyone’s fate
Is wrong, that could just be simply ascribed
To previous life’s sin, some kind described!

If Man would not think before act, it’s fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man’s incompetence!

Wreck, the kept concealed deceptive contents
In the meaningless misdeeds, these fellows
Manipulate: that common man swallows!

Then and now, we are fools: that’s history!
To make man fool, manipulate treach’ry:
But, sacrifice of, innocents, that’s scare!
Only love that shun superstitions, pure!

Gods' likes and dislikes!

Look! Interior the temple, leather!
Then and now, the one forbidden thither!
Dead animals' skin! May be the reason:
Even in the case of leather, passion!
There, in pronouncing the leather, mean,
Great god's partiality can well be seen!
Objection nil, in use on percussion
Instruments, to enjoy rhythmic session!
To the kid-priest, in place of sacred-thread,
Like a cross-belt, skin of deer can be used!
Sorry, to see single purity, two!
Isn't the man creating silk, killing too-
Many, say, *crores* and *crores* of the silk worms!
To you god, who observes pollution norms
In birth and death, can have threads of the dead!
Passion to wear silk robes, awful, it's said!
He even loves, the shell of the dead Conch,
That produces good tune that gives a punch!
Had man, made not, silk garments, one can't, oh,
Imagine, what would have been god's fate! Pooh!
Things are there more, for which, grateful, gods should
Be! Gods of religions some, always would
Have an affinity for candle flames!
The sound of shots as the offerings, claims
The believer, in temples many, are
Because, those sound, gods and goddesses adore!
Had the scientist, invented never, gun-
Powder, to fire, - it's really fun –
The poor gods, would with depression great,
Cried 'nd cried 'nd died, due to unbearable lust!
What, man innocent is to learn from these
Is, that god's likes and dislikes aren't god's choice,
Own, but, determined by those who cheat man
In god's name, the priest-hermit race, to earn
Their existence, to capitalize on innocent's weakness!

If Man would not think before act, it's fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man's incompetence!

Divinity and humanity!

God having abilities, to even
Create, universe this himself proven
He requires not at all Man's help any!
Brain being responsible for any
Ability or disability
Of Man, and the brain being almighty-
Creation, isn't god's own duty to act,
To do what all are necessary, apt
For their goodness, happiness, health, uplift
And all such matters to sustain the gift?

When we give birth to offspring, are we not
Doing all these for them, and neglect not!
Then, if, god is not doing like that, means
It is sure we are not god's creations!
Aren't, through inquiries and searches we find
Things all necessary for young-kind
And do them for them, as and when required!

Is it, because, we are praised and worshiped
By our younglings: no, not at all but for
Our staunch consciousness, belief's yearning for!
Even if quite grown ups, our children are
For us, always children! Aren't they? They are!
Like that, even if we become old, we
Are only children to god almighty!
We would expect something from our children
Only if we, incapable, proven!
Never will god become incapable,
So, god will never expect Man humble
To give god anything, whatsoever!

Worship, **'**corban**'**, offerings, praising songs,
House; nothing god requires, and there hangs
The real truth! Then, isn't it quite clear, who is
In need of these; the priests-'*sanyasies*'-
Race, the human cheaters who cunningly
Live, on food that's extracted crookedly,
Deceiving 'nd capitalizing on man;
At all times, in the name of god, man's fan!
So, to be praised, the relation that's

Between man and god is not the one that's
Between proprietor and labo(u)rer!
Worship and nothing such being hither
Necessary, then what's the need for an
Assistant; for handling god's affairs! Man!
It's really pity, that to worship
That assistant, there would be great courtship -
Feeling-man, quite superstitious tools, fools!

Priests too are mere humans, wretches great, poles -
Apart from divinity; then how could
The priesthood race, be so? Pity we should
Fear servant too, besides fearing master;
None of the qualities of the master
Could the servant get, even'f tried usurp!
On one side, these saintly fellows would harp
On their ability and cure other's
Diseases, with mere worship; when bothers
About own disease, always the only
Asylum is the hospital strictly!
In it, lies there, materials for thought,
With it can, man have lot of news quite hot!
Isn't it today one great, great 'saintly - man'
Was, even operated on and seen
Saved, from death imminent, by the doctors!

If, Dr. Job's blood-flow-constriction, god
Cured heeding mere worship, is it not fraud
He didn't care to cure the one too much close
To him: and that too, growing tiny false
By-pass arteries: but was forced to reach
Hospital itself, for the treatment, (breach
Of man's trust in god) by the MAN himself!
None worldly have, whosoever oneself
Be, divinity any: if it's said
Is having, it is either falsehood fed,
Or acting, cheating, superstition led!

'Man gods', man having godly powers broad,
Man divine, are all hundred percent fraud:
If, even today, this, Man does object
Recognize, it 's his time unfortunate!
Let us remember, these divine cheaters
Could nev'r overpower humane natures!
News flood, nowadays, all over the world,
About, divine-Man-intercourses bold,

And murders divine; long back, Man never
Came to know about this behavio(u)r;
Severing religion's secret armo(u)r
Was quite impossible then, defied clamo(u)r!

How, an inhuman, have divinity?
Religion-difference nil, vanity -
Bound buffoons divine are nowadays caught
And cases charged for all crimes heinous sought!
Without proofs explicit plenty, fellows
Religious, would never be jailed; callous!
But, those who commit such crimes secretly,
Misusing their positions, quite stealthily
Would be experts in obliterating
All evidences; all, infiltrating!

In world this, where priest-executioners,
Murder-preceptors, women tormentors
Who are priests and preceptors, could well shine,
Virtue could never grow and become fine!
Only, when priest-preceptor-monk-sage-saint-
Race, becomes extinct in this world quite taint,
This world would turn good, man get salvation!

If Man would not think before act, it's fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man's incompetence!

Wreck, the kept concealed deceptive contents
In the meaningless misdeeds, these fellows
Manipulate: that common man swallows!

Then and now, we are fools: that's history!
To make man fool, manipulate treach'ry:
But, sacrifice of, innocents, that's scare!
Only love that shun superstitions, pure!

'corban ' : a kind of offerings to god
'*sanyasies*' : god mongers who live at others expenses

Plain speaking!

Plain speaking! They would trample to crumble;
It ‘s abhorrence to them, so would fumble!
The food, the ‘Repentants’ get, is the food
That all their close relatives created
Through their sins, they delivered from the start!
Isn’t it the remnant of the cheating-part?
The blind staunch belief, that god can’t commit
Mistake, ever any: then never did
God feel the least, that mistake some he did,
It ‘s the other one, the man; for the sake
Of, his own benefit some, he did make!
If the right thing is said as it is, and
That itself, when it is about the hand
Of god, it is not necessary for
Anybody to feel hurt anymore!
No need for antipathy, any, as
It is what really had happened those days!
To make the so-called believers, believe
That they are not really believers live,
But, quite superstitious; it is a thing
Impossible, without some ‘sex-handling’!

If in the beginning, then, there were, only
One male and one female; nay, simply
Created; to day the reason for this
Human deluge, are things many basis;
That we consider wrong, sense or nonsense!

“Be fruitful, and you multiply…..,” ordered
God to all the creatures, he created;
In that process, to the mankind as well!
Oh! They were though one male and one female
Only in each, it all of them obeyed!
Order, if it was only to them confined

The succession of life would have to a
Standstill come, in one generation; stay
Coming to number multiplication!
Even today, if continuation
Is there, it means second generation
Too, obeyed and without interruption
Order is being followed; and that‘s the truth!
No one should wrinkle one’s forehead, henceforth;
Nobody should call me names any;
I’m here reporting only truth canny
That really took place in conformity
With the order of the god almighty!
If supposed, that to the first woman and
The first man, a minimum one male and
One female child were born, then for the next
Generation to evolve; to the best,
There are only ways three; son and mother,
Father and daughter, sister and brother
Relationship sexual; and that is why
Even today, this ancestry lasts high!

If needed, god with abilities great
Would have created numerous them, straight
In stretch single; yet, if it was not done
So, doesn’t that mean, increase through couple one
Is quite right, that is sufficient, isn’t it?
If for this, we impose sanctions, doesn’t, it
Mean, god did mistake, and isn’t it quite clear?
But, god can’t commit mistake, isn’t book a liar,
Lies religious, proclaim and do publicize!
Then, where did the mistake happen, precise?
Religious books, mere imaginative
Creations only: it is to the knave
Human beings, who had blindly believed
All the contents of them are true, deceived!

These fools, embracing the thick books corrupt;
Manipulative creations perfect
To siphon out, funds and hono(u)r in secret;
Is caught in cobweb knot, knit by racket!

When situations in nature became
Suitable for life formation; where came

That situation into existence,
There all, single celled life emerged and thence
Through ‘crores’ and ‘crores’ years of evolution
Reached this state; that’s the truth’s real position;
And life not given by blowing, breathing out air,
Into the just made male and female pair
Of Man, out of some clay; in gods own shape!
The visualization, that this type
Species, the Man is self-born, too is not
Correct; in beginning, starting from root,
The single celled life, reached the ape-man stage
Through evolution ‘nd it is from that stage
Man came into existence: and not one
Fine morning, jumped out of vacuum, as born!

In way same as mushroom sprouts in drizzle
In environment same, male and female,
Many, many of them might have taken
Shape: not one in each, not quickly taken
By surprise, but through years and years numerous!

If Man would not think before act, it’s fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man’s incompetence!

Wreck, the kept concealed deceptive contents

Offerings!

Long ago, even before, stone-age,
When man used loiter under foliage
Dense, in the interior of forests;
Used to throw away here and there, the wastes
Of food, and that was eaten by the birds
And animals: but, in contrast, the hounds
Waging their tails, rubbed their bodies meekly
On calf of the leg of the man, 'knackly'!
Seeing the showing of gratefulness by
The dogs, aghast stood man: on and on, by
Them, the show of thankfulness increased
And in the event of the hunting based
Expeditions by man, gave the support
In return to favo(u)rs dogs received in comfort.
In course of time the contract was endorsed!

When superstitions about the god, pierced
Into man: thinking, "If something given
To god too, we could get relief even
To our miseries," they began in great
Expectation, to give food to gods, straight!

One among them burnt alive in forest-
Fire-flame; or one disappeared, kept abreast
Within the fury of water gushing
Drowned somewhere; or one caught in storm, waging
War, flew and fell dead in front of them, with
Head dashed against; or one caught, pressed, crushed with,
Under the falling tree, he hitting hands
And legs, shouting, struggling and struggling ends
Crying and crying, in front of their own eyes:
Earned then, for the forest man, who wasn't, wise:

“God likes life, better than the food given:
If, One is killed and the life is given
God, would like it, it would show gratefulness
And give, support good, with full willingness!”
The thought-transfer might have been through dumb show.

In order to see that the gods would thaw,
The beginning of human sacrifice -
Offerings, started thus, then, to suffice!
First, the enemies caught; then, the kidnapped;
Thus went on the list, time and again heaped!
The civilized man, when, started feeling,
Something wrong, brought forward, repealing
The custom of the human sacrifice:
At least few, now too, conduct sacrifice
Here and there, secretly, of human beings:
The imprudent, for getting gods blessings,
Or by, benefit extractors, prudent!
First, because of the fear of punishment,
Earned god’s blessings, by killing animals
And birds, and satisfaction got, the pals!
When that too was prohibited, he found
Abode, to confound god, greedy bound:
An, expert plan the great: the poor ‘ash-gourd’s’
Misfortune: immolation of the fruits
Of vegetables, will always save from
Attraction of punishment, in no form!

Saffron powder, if injected into
White-melon; and broken open on to
The ground, would it not present semblance of
Jumped-out bowels and blood flowing out off!
Wouldn’t god foolish, believing it, become’
Satisfied and pleased, bless us with boons some!
Man, found, god could be deceived in way same,
Cutting lime and smearing on, slaked lime
‘Nd turmeric: showing blood oozing from it!
Crushing lime, driving vehicle over it
Too, could attract god’s grace: don’t know to whom!
The man, who destroys what man could consume
Is the one really to be sacrificed!

For gods these, there are lots of specialized
Offerings, list long - flowers, fruits and such!
How could they be pure, when offerings such
Are made by those who aren't honest at all?

If, all things in the universe do fall
Under the creation by god, then why
All these, he created, which are thereby
His own, we do seize and offer to him
Himself, as if are ours, to deceive him!
Aren't manipulations these, to cheat man!
To give offerings, to worship by man,
Manufactured rules plenty, by the priest-
Mendicant race, their intelligence thrust
To make their and that of dependents life,
Very luxurious, cheating others safe!

If Man would not think before act, it's fact:
Cheating always, these fellows would turn fat,
Capitalizing, Man's incompetence!

Wreck, the kept concealed deceptive contents
In the meaningless misdeeds, these fellows
Manipulate: that common man swallows!

Then and now, we are fools: that's history!
To make man fool, manipulate treach'ry:
But, sacrifice of, innocents, that's scare!
Only love that shun superstitions, pure!

((((((((O))))))))

AHH! WHAT A WORLD!

(Titled, 'THE FUTURE TEMPERAMENT', book
Gives, extracts these for thought, so have a look.)
Thoughts, all haphazard, swing between extremes
But, the flow continues like tinkling streams!

It is said, god created Him and Her
But, nothing about feature or nature,
Whether they were created as babies
Or adult human beings, new species!
But, if babies, no idea, thenceforth
Till adult stage, who looked after* their *growth?
How they learnt a language in its absence?!
If adults, then too, nothing commonsense
Tells, how so suddenly they could follow
The language that god used to speak mellow?
Religions all tell us god created –
Everything, never elaborated!
And in the wilderness we grope answerless
How god came into existence, still less
The knowledge: who created god the great!?
Aren't we forced believe, existed god straight?
Why in anger, soon priests halt us 'nd label
Sinner, for they couldn't find answer global!
If we could take it for granted that there
Existed god from beginning, why care
Not to agree to thought, other things too
Existed from beginning in to-to?
For your livelihood-earning, you want him
To keep alive, but the chances seem dim!
Unless you give answers believable
The searching minds will never turn humble!
Cheating can't be perpetual, don't grumble,
Exposed you will stand soon, sure, why fumble?
If god created ALL in universe,
Sun, moon, plants, planets, earth, animals, stars---
Who-else, can be responsible, for what
Happens therein, good or bad, no secret.
If a man turns criminal treacherous
Murderer, robber, rapist lecherous

Isn't it as the man's thinking, emotions ---,
Go awry without having restrictions?!
And it's so, because god gave them a brain
That works in that direction, no constrain.
Then what right has he to test or punish
The victim of his fault, and try tarnish?!

Before Dead 'nd god, actions comic, they do!
Ghee, milk, water; lot baths you give – one, two…. !
God! Dirt!? Only who collects dirt needs bath!
Is he luxury addict?! Takes gold bath!
All gold - sanctums, idols, crescents, crosses!
If not to cheat Man, what means all these farc's?

Flowers, fruits, …… , you say, are all by him made
Why give him what's his that he himself made?!
Trying to cheat him as if you owner
Giving him what himself gave you prior!

God, if of ability great, surely,-
With each individual, directly
He could deal matters simultaneously.
Isn't god's in-ability, clearly -
Shown by presence of broker, in between
God and man to communicate between!?

If man went out of his control, no nods,
God's bankruptcy the villain, gods not Gods!

(Can anyone from any religion
Clear, these doubts that pervade every region?)

Are, all handicapped, psychopaths, Sick-Man
The result of god playing the dice, then!?
IN MAN'S CREATION, WAS HE PLAYING DICE?!
IS DICE PLAYING APT TO GOD? ***Please think twice***
Intellectuals, philosophers, thinkers
Wizards of religions – god-mongers!
The more we think, the more, doubts we confront!
The blind would find it easy to befriend
Faiths - beliefs without proof – propagated
By believers blind or cheaters rated!
They say the universe god created!
They, mute us, how god originated
Ascribe sin, reason, answer they have nil!
Some would say, god was there - against your will!

In mood same, why they can't agree, cosmos
Were, there; why they drag god in, to oppose?
Clear, cheaters or believers blind they are
Like god mini, they pretend on a par!
Cheaters earn a living, care of god poor,
Dragging in god and creating terror-
In man, Cheaters do extract their money!
The way to reach god, they describe, thorny!
Between Man and god, usurp in a place,
A self styled one, to recommend god's grace!

Believe in thy own god! Oh! Slaves of faith!
But, why a broker, in between, in stealth!
God is abilities' embodiment
Able to hear: All at same, time, content!
Don't you know to pray directly to god?
Why, you need, middle men few, brokers, fraud?
(Flattery does wonders, why god is praised?)
God knows, our needs and pains; sufferings raised!
Then why you tell them to god and remind
And praise him on his face, flattery kind!?
Is he flattery addict? Discredit!
Thinks you; only, flattery could create
Symp'thies; duty is god's, to look after
Own creations, once god creat'd litter!
(If after creating babies, throws Man,
Them, into forest, how survival can!)
Cheaters and Blind would say god is testing!
<u>Why, arose, necessity for testing -</u>
<u>Creations his own!</u> And why, diseases
Too, causing and or spreading, viruses!
And bacteria, to make creations
Other, <u>his</u>, ill?! Oh! Forgot ambitions
His, isn't god a sadist, likes sacrificed
Animals, god himself to world prefaced!
Abilities concentrated, god is!
Why needs Man's help t'get them killed as it is?
Without religion difference any
Likes blood-shedding by devotees many!

Even gods vegetarian do like
Blood! (If milk, vegetarian, alike
Syringe could extract blood too, without killing!)
Where flattery fails, penance succeeds selling!
Why in same breath they say, "god created
Man" "Man disobeyed god!" Orchestrated!?

Doesn't it mean, god knew never, how 'n future
Man would behave, or god erred 'n Man's feature?!
For, god made brain his, gave him thinking power!

Responsible who, for Man's behaviour?
If god's foresight nil theory supposed
God's creations' imperfections exposed!
Or else, god a sadist, cheater, admit;
Knowingly made Man disobeying pit
Rubbish, creat'd evil nil then, tempted,
Punished 'nd enjoys man's pains unabated!
Haven't Man suffered enough for disobey'ng?
Generations endless gone enduring
Yet, not in sight god's revenge subsiding!
Heard 'nly of Man's vengeance continuing
Is god too so, a too-mean-minded creature!?
If, the first Two, only punish'd, the feature
Would have had, meaning, justification.
For parents' fault, why the crucifixion -
'F children, innocent! Anachronism!
(Pity! None, till, knew god's egotism!)
And that too for none of the Two's fault! Shame!
But, god's own creation, defective fame!

Instead, god could have corrected mistake
His own, *"LET, MAN'S THOUGHTS EVIL, VANISH; WAKE…!"*
Would have done wonders, what would have been world!
One Religion! One Man! Love! Love! ……. Not cold!
Imagine! …..Violence-less…….Murder-less……
But! ALAS! Where is that god the end-less?!
When MAN'S deeds are all govern'd by the brain,
The god gave MAN,, why do religions strain
T" hammer idea 'f apologetics!?
These are all just, to-fool-the-man tactics!
To the god, why Man should apologize
If god couldn't succeed to synchronize
God's likes and dislikes with that of Man
While mo(u)lding Man's brain like his, *which he can!?*

Under the sea, *Hiranyakshan* hid world,
***Vishnu* incarnated into Pig bold,**
Killed *Hiranyakshan* and retriv'd the 'gold'!
Author of the book very sacred, told!
But, sea itself being part of world

How can one, under sea keep it and hold?!
Oh! Wonder! You whole your mouth swallowing!
The whole, into its own part: - submerging!

In charity, earned *Vamanan* three feet
From *Mahabeli*: cheating came to light
When he grew to size big'nd measured the whole
Of the world in one foot, second foot's sole
On heaven, and finding no place to keep
Third, *Maveli* bowed his head for next leap!
***Vamanan* trampled him to, Nether world!**
Question great arises from story told!
Where w's *Maveli*? In heaven, hell or earth!
If, was in heaven or earth, isn't it worth
Think; already his leg fell on his head?
Then to keep his next step, where is his head?!
If he was already in '*Pathalam*'-
Then how he trampled him to '*Pathalam*'?

"God is All-Hearing, All-Knowing, he Knows
What- you disclose, and what you conceal, flows
To him, knows he full well all that's in breasts!"
But, find we, the use of that knowledge rusts!

The terrorists indiscriminately
Fire'nd kill innocents 'nd babies cruelly!
Though, in advance knew god, what was going
To happen, Protector didn't stop firing!
He has power over all things, yet why?!

God has made everything perfect! It's lie!
If correct, Man would have been perfect one
Without having the deficiency none!
If the creation of Man was perfect
There wouldn't have been necessity t' direct:
Messengers, Prophets or Messiahs; or
The god to take some '*Avatharas*' for
Making, the man, enlightened and save him!
But, possibility seems very dim!
For having, his father killed, by the sons
Of a king, and for no other reasons
If god had taken an incarnation
To annihilate the whole caste-faction
The ethnic group '*Kshathriyas*'; traveling

Twenty one, times, throughout nation, killing;
Then, Hitler too was one among great lords'-
Incarnation: it is heard Man, mad, lauds
Taking vengeance ruthless, how can it be
God-deserving-quality - a bit wee!?

If god made "sun", only on the "fourth day"
How "morning" and "evening" from the "first day"!
Day, night, result 'f sun's rays on earth's movement
But, god didn't, bless them with that involvement!
"Grass, fruit yielding tree", god brought forth even
Before the making of the "sun", great fun!
Plant life – god is great – even without sun!
Beginning, who created god?! Shhhh… sin!

"God's bypass surgery!" Publicity,
Plenty 'n all mediums: duplicity
Exposed! Instead prevention, the blood-clot,
First, god makes in Dr. Job! Then ov'rcomes! Plot -
Great, grows small arteries, taking up blood
Around clot! Natural! Straight cheating flood!

(Wise men dislike segregation among
Human beings, partiality shone long
Against the fair sex, domination by
'Unfair sex', crime heinous, without shy!)
Let replace 'Xome' and 'Yome', 'Woman' and 'Man'
Synonyms may be 'Sheman' and Heman'!
'Human-beings', 'Mankind', 'Humanity'
'Man' – together sexes in parity.
'Gentleman', one gentle among mankind
'Man', common gender, not masculine kind.)
One religion tells that god created
***Sheman,* with rib from *heman* extracted!**
Invites this naturally us, to have
A very close look, what do there we have
At Thoracic Cage of human beings!
Both the sexes, alike, do have the things
Sternum, front, and twelve Vertebrae at back!
And, twelve pairs of Ribs at sides; do not lack
Both identical cases, they are found,
Unattach'd to front are last two pairs - sound!

Had a rib been taken from the '*he-man'*
Definitely, should have had, one less than
***Sheman,* with number of ribs on one side**

Even, and odd one on the other side!
For, god didn't replace the rib, with one fresh!
But, he " instead thereof, closed up the flesh"!
Conundrum! When god could create "The First One," directly: was there, need, to take gist
From *heman*, to create the *sheman!* Hell!
Is it to show her, inferior! Tell!
Oh! Fair sex of the world! Hurry! Unite!
All religious books you quickly re-write.
Reveal the latent all hypocrisy,
Calculated criminal conspiracy!
You, subjected to humiliation,
Raise voice against the discrimination.
Religious fundamentalism on rise
Is sure, to try your efforts neutralize.
Look back, mean aim that's behind the story,
Crystal clear, to paint the *sheman* the sorry
Figure of one, who 's, '*yome's,* inferior,
Wonder why, still here he's superior!
Yonder see! The right to enter the place
Sanctum sanctorum ban, she has to face:
Doomed you're to confine to home, your prayers
Authors holy, freedom yours destroyers!
Polygamy can; "*talak*" at his will
And compensation, often a big nil!
Polygamy can! Why polyandry
Not?! God's impartial rule! Not contrary!

Aren't you compelled, wear, face-covering robes?!
Never will 'God' be partial, doesn't need probes,
For, 'He', 's incarnation of all wises!
In to-to a hater of all vices!
Why, *'yomes'* are not subjected to such rules?!
***'Xomes',* dreamt *'Yomes',* could keep them as cheap-slaves! Fools!**
Slaves! Fools! Ever, any *'yome'*, thrown on his wife's pyre!?
Never! You couldn't frown; you slaves can't, 'Them', fire!

No god of religion any, ever –
Had sent a prophetess great to bother!?

The Scriptures of no religion inform
Of a daughter 'f, god, sent to earth, confirm
The authors of all main books sacred were
***'Yomes'* and not *'xomes'* – doubtlessly they declare!**
Ever any *'yome's'* head clean shaven, dressed
White; denied remarriage and suppressed!?
Nuns have to confine their life within four

Walls of convent, contented, no place for
Them in churches, it is monopoly
Of *'yomes'!* Have you ever seen, a holy
Priest from fair sex, performing services
In, churches public!? Oh! Awful disgraces!
They, aren't permitted, neither in temples
Nor mosques! Oh! Discrimination gambles!
Sentenc'd to be stoned to death, while buried 'n sand
For plotting with married neighbour to band
Together and conceive child, committing
Adultery, met death horrifying.
(Oh! Injustice! Thou art wolf, goatskin dressed!)
But, equal share partner seems blessed
Not by god, but, those who invented rules
To subjugate fair sex, using those tools!
Rare, the 'unfair sex' ston'd to death -
For adultery! No! Escapes in stealth!

"OF ALL PERMITTED THINGS, THAT WHICH IS MOST DISLIKED BY GOD, IS, DIVORCE.... " the great ghost!
Oh! Fair sex, you too utter <u>the word</u>
Three times and divorce your partner, when bored!
But! Alas! You are only slaves, to him!
Act! Be brave! Act! Expose them! To brim, trim!

<u>Attitude, partisan! There is no dearth!</u>
<u>Can 'God' be, partisan? Ah! Justice death!</u>
If, can be partisan, surely that's not
'God', but 'god' topsy-turvy, faithful not!
'Sacred books', wrote, they themselves for themselves,
For domination their own, 'nd rule themselves!
Oh! Pity, in almost all fields of life
Exists 'unfair-sex' domination rife!

Fair-sex-metamorphosed 'MANGODS' too, rare
Where as, the 'unfair-sex'-'MANGODS', ensnare!
Have 'xomes' ever founded a religion!?
OH! YOU START ONE, NOW, ANEW IN UNION!
Writers of books holy, founding fathers
Of religions, dug the trick that bothers.
'Holy' writers, stories wrote, creat'd mod'l
Seeming characters, appeal-soul-citad'l!
Succeeded fooling you, write your own books-
Religious, stress your authority looks!

Include, 'xomes' can pronounce 'talak' on 'yomes'
Get separated! Unite all the 'xomes'!

"Be fruitful, and you multiply…..", thus, god
Blessed all living creatures, giving nod!
But, priests and nuns do disobey great god!
Pity, even god's son, disobeyed lord!

Though scriptures say god's creations, perfect,
They, chop off parts, because of the defect
Discovered, that genital organs, sin!
See, what a fate to god-made devil skin!
After circumcision, deaths 'f girls and boys
Still prevalent, in some sects, the poor toys –
In the hands of "Gods Supreme", the great priests,
Who fix characters to "Real Gods"! Persists-
Superstitions such, to perpetuate-
Hold, firm, theirs! Beliefs deteriorate!
Doesn't, act, chopping off itself declare, fact
God's creations really not perfect!

These, only few, what books say; slips natural
To authors; but we salute cultural
Pictorial and imaginative
Descriptions that thee present creative
Oh! Writers of all books, that are, holy!
We know, expecting perfection, folly!
We see him, tongue, cheeks thrust through with lances!
We see him, thin cane sent through, made-skin-loos's!
We see him, rolls round sacrosanct places!
We see him, does various kinds penanc's!
We see him, beats own chest, hard, and blood ooz's!
We see him, re-acts, hands, legs nail on cross's!
We see him, inflicts pain on self, los's sens's!
We, see him, fast, and fast unto death cas's!
Do you, appreciate, all these vices?!
Do, you like to see sufferings of mass's?!
Are 'u pleas'd, proud 'f!? Nay, pride, what nobil'ty!
Are you a Sadist?! Are you bloodthirsty?!
Heard, that you asked, Man's child as Sacrifice,
Enjoyed All's, agony: when felt suffice
Restor'd it and return'd it, to save face!
Though you different, the same tale surface!
Whate'er by name they call you, there's one thing
Common, to you Man's sufferings, plaything!
Humph! So-called savio(u)r of humanity
It's alarming to see you bloodthirsty!

Are we fools to believe, god a Sadist
Cheat, Rogue, Wretch, Envious, Partisan, Most -
Bloodthirsty, Flattery Addict: even
If religions preach so, it's uneven!

White tents seventy thousand on the planes
Of Mina in Soudi Arabia burns!
In inferno there did lay two hundred
Dead and injured one thousand two hundred!
Couldn't reach Islam's holiest of holy
Shrines at Mecca! Does 't mean, praying folly?!

In years recent, it's the fifth time, homage
Paid to the victims of the 'Haj' pilgrimage!

The "Big temple" did wear a festive look
For "*Mahakumbhabhishekam*", the crook!
For, with wails of sorrow rending the air
Temple was transformed, soon into graveyard fire!
Frequent are, at rel'gious congregation
Many gutted in a conflagration!

Or, were they all who sinned, brought together
- At, same time 'nd place - to be punished, together?
A god, killing those who sincerely pray,
Going to him on pilgrimage, like prey!

In a world where black-marketers 'nd smugglers
Share the profit with god, are survivors;
In a world where murderers bribe 'nd pray god
Remission, explain'ng reason for acts sad;
In a world where 'god-fearing-creature', the Man
Bribe' nd pray god in advance, before they plan
Acts, gruesome, to close his eyes for a while
What's the use of religion, god's profile?
In a world where, gold, diamonds and money
Are lav'shly spent for construction 'f many
Idols 'nd shelters to god aristocrat;
Golden domes, diamond studded crowns, t' attract;
And the poor and common man to starve,
Die of ill-health, who for hospitals crave,
What more can we expect? God's mood doesn't stop
Costly constructions, diversion no hope!
In a world where at least few assistants
'F god misuse status t' rape 'nd kill Innocents

In a world where Man kills Man, in the name-
'F religion, what it contributes t' Man's tame?!

Times religions did, good to Man over!
Mutual love 'nd help alone good for, ever!
Religious or not, religion a fad!
Everywhere there are people good or bad.

You are banned reading books criticizing
Unbeliev'bles 'n religion, tactics 'n grazing!
Gaining knowledge extra makes dangerous
God's assistants' ex'stence, injurious!
Oh! God's assistants, livelihood earners –
'N god's name, search other cheatable corners!
Or, hasten, make, all changes suitable!
Amend scriptures to fool the cheatable!
AREN'T PRIESTS TOO TERRORISTS?! THEY TERRORIZE MAN, MAKE HIM BELIEVE, GODS TAKE VENGEANCE!

NO LACK OF FUEL AND PARTS ARE DEFECTLESS
CO-ORDINATION OF SYSTEMS EFFORTLESS
THE SYSTEM AS A WHOLE, PERFORMS QUITE WELL!
THAT IS LIFE, 'CHEMI-BIOLOGICAL'!
Matter 'nd energy can't be created
Or destroyed, conservation law stated;
Only changed from one form to another!
Conservation of life , we don't bother!
Cloning by man, plants and animals fair
Proved, birth not at all, after-death-life here!
Existence of religion, life and death-
Problem for the priests, as food theirs comes forth
By making innocent humanity
Blind believers and slaves of vanity!

What a comfortable life! Needs no toil,
No tilling of land, pulling of gear, foil -
All physical exertions; just reading
Scriptures and a bit gesticulating
Quite sufficient to earn food and honour!
So, to keep religion alive, priests corner
Ways different; give publicities great
About wonders performed by god, to beat
Atheists - through all the publicity
Medi'ms; bribe scientists for duplicity!
Scientific magazines are published
Interpreting and trying established
Scientific truths, to get, distorted!
Purposely to explain by concerted
Efforts, religion in terms of science

And see common man with cheated conscience!
What a life of ease and peace, juice and 'fuse',
Never, you could enjoy here without dues!

At the public propaganda meeting
Dumb, is made to speak, and Deaf, hear speaking
Lame to walk well; Ill, cured, magically!
All staged neatly and very cunningly
To impress Innocents, of god's mighty!

If a mere prayer, sufficient - it's pretty-
To cure disease, then why god's assistants,
Priests, Monks, 'Sanyasies', right hand assistants
Of god, snakes in the grass, were hastened -
To best medical-aid, when, was frightened -
Of, death imminent! Does not such acts prove
Priests' culpability, Man, disapprove?!

Doctor's artificial breathing, gives life
Back, to the heart-beat-stopped man! Is it safe
To think, the soul that left, returned to him?!
Terrorists could throw out souls, no problem!'

Fortunate are we, for our more and more
Ultra modern, grand… grand…. Mother tales store!
Like *Hanuman*'s tail, tale goes 'nd goes, ends not,
A never 'untie able' knotty knot!
"Temple stood where masjid stood where kirk stood
Where pagoda stood where synagogue stood…
Church…where… where… pantheon stood…
'*Aadivasi*' religious hut stood stood…
Pre-historic prayer plains might have stood…!"
'Nd stunned entire Nation, nay entire World stood!

Distribution of tridents, just a stunt
Like snakes and idols drinking milk; pungent
Religious festivals; all well planned tricks
To keep god alive - cheating that still works!

WHAT A LOT IS SPENT FOR PLEASING THE GODS
GOT A PAT NOT SO PLEASING TO THE MADS!
SUFFICIENT ARE OUR CHURCHES, TEMPLES, MOSQUES,
SYNAGOGUES, PANTHEONS, PAGODAS, KIRKS!
LET'S PRESERVE THEM FOR OUR POSTERITY,
SO AS TO, QUENCH THEIR CURIOSITY.

NEVER COMMIT CRIME, DON'T PULL DOWN ANY,
LET US NOT ANYMORE WASTE, HARD EARNED MONEY
FOR CONSTRUCTING PLACES FOR PRAYING GODS
YOUR-HOME, OR A ROAD TOO: DO LIKE, THE LORDS!

Their constructions help only parasites
To earn the comfortable living heights
Without toil; but, at the others expense!

If all the money that made the Nonsense
Were used for hospit'ls, educational
Institutions, homes for aged, vital
Orphanages; now the world would have been
Turned into wonderful heaven ev'r seen!
At least in future, let us, enforce, ban
On Shelters, care of gods. **HAVE WILL, WE CAN!**
Man's superstitions created the god!
Even now man is under the spell – sad!

Let's help each other, let's love each other,
Narrow considerations why bother
Us; we are real MEN, not Sikhs, Jews, Christians,
Moslems, Hindus, Buddhists, Shamanists, Jains,…

The so-called god-men, aghast will make you
Stand! Brings 'vibhoothi' from the space, anew!
You ask those crooks to bring from space, a chair.
(They could bring only things hand could hide fair.)
Performed one witness in court, similar
Feats and proved, they were merely tricks thriller
Or, slights-of-hand and had nothing to do
With powers supernatural suppos'd do.
Some! Oh! Still believe! The blind religious!
Won't bother rack their brains, search rigorous!

Being the god, didn't he knew in advance
Man would disobey him 'nd eat the fruit thence?
If god created Man he wouldn't have him
Given brain so bad to disobey him!

Impossible imposed on innocents!
Innumerable are illustrations!
Don't these mistakes, lead to realization
They are nothing but, visualization?
Don't these blunders, 'HIMALAYAN' expose
They are mere imagination-repose?!
Don't they prove, earth, sun, all those planets clan
Evolv'd themselves 'nd not creat'd as scripts ran?

First, religions formed, intentions sincere;
Prejudicial though, and contents, obscure!
Cruel time, as gnawed in, turned notorious,
Livelihood of those the sanctimonious!

'MUSLIM CLERIC IN U.K. CONVICTED'
FOR, AGAINST ALL "NON-BELIVERS" HATRED
PREACHING: INCLUDING HINDUS, THE SAME THING
WHICH HINDUS, CHRISTIANS, ALL RELIGIONS SING!

THE BELL IS RINGING FAST FOR ENCOUNTER!
NEVER WILL BE KNOWN THE REAL INTRUDER!
FOR, LANDSLIDES, EARTHQUAKES, PLANNED PLOTS,
TOO GREAT FLOODS
COULD HAVE RELOCATED ENOUGH OF 'GOODS'
FOR EXCAVATION THAT COULD MISLEAD MAN
MAD, BLIND, SELFISH, BRUTISH, VENGEANCE FAN!

Are the innocents, brutally, shot, dead
With concurrence 'f god, as nothing could head
Without god's knowledge - as claimed by god's men!
Wonder, terrorists scot-free live 'n their den!

Can you argue, all the dead were sinners
Or, the terrorists were good deed winners
Were babies 'f crèche they killed not innocent?!
Were they sinners in their life's previous stint!?

Why Saturday night's birth caus'd* such *flutter?
All the features of baby were, utter
Normal, except for the twin heads attach'd
To each other, and that is what detach'd
The baby from other babies wholly!
Some perverted consider'd it holy!
And some, frightened, as felt it bad omen!
Two heads on one body! Oh! Not human!
If everything is created by god
Then this too, is created by, the lord!
Did he create it to frighten the Man? !
If he created Man perfect, how can
There arise, situation when god will –
Have to frighten Man with fear of kill?

Pity! Monstrosities, to suit his whims!
When on Siamese twins, the doctor trims
They turn two individuals sep'rate!
Is it that when they were one, corporate
Life, single they had, or had they two lives?!

Or, will you say, when they became two halves
The life also was split into two bits,
Each bit having half-life? Wonderful hits!

Man's mind is agitating many still!
Many scriptures, ascribe sufferings, well
To Man's past '*KARMA*', A PLOT INVENTED
By god's self-styled assistants, perverted
For want of explanation plausible
For mankind's ag'nies not palatable!
Fervour artificially created
Can't, last long, will soon get terminated!
History tells, Buddha, Christ, Confucius
Muhammed, Mahaveera and Moses
Mikado, Nanak, Rama and Krishna,
New one in Kearala, Narayana
Were all hum'n beings, with ideals great!
Priests, well, promote them to god's status, straight!

Which god of which religion gave warrant
To religion t' split into different
Kind ethnic and sectarian groups, kindling
Animosities, licensing killing!?

When did god ask, believers to form groups
Roman Catholics, Protestants 'nd such flops
To mar the Christianity; Buddhism,
Into *Hinayana* 'nd *Mahayanism*
The Islam into *Shia* and *Sunni*;
Hinduism, into, lot of castes funny!?

Exists, religions 'f two different kinds,
Man made 'nd fear made religions, one finds!
Their Aims were good till the priests hijacked them
And they transformed 't into an item-
Lively-hood-earning-business, lucrative
Politics, prostitution effective!

MAN can't be cheated long; the religion's
Ruling machine, 's so set up, legions'
Struggle alone, could re-set our bond – chain
Of slav'ry to priests' dictatorship reign!

God reigns, not chance, atom bomb dropp'd! Not, chance!
The thinking process god gave Man enhance!
Rawanden genocide eight *lakhs*, refugees -
Of Kosovo blindly bomb'd; god reigns, no peace!

Can he say 'nd escape, "I GAVE ONLY LIFE!"

Then, no wonder, his end 's near; can't be safe!

(Man not at all created, but evolved!
Problem, great, annoy'd man, haunted Man solv'd!
Origin of Species and descent of Man -
Theory, not propund'd by a layman!
Graduate, was Darwin 'n Theology
And experienced in 'Churchology'!)

You cannot rely, Man, taken granted -
Anymore, his brain's growth is not stunted!
Ahh! You will lose the race, in the long run!
Alas! Cheating, fighting Man, not a fun!
Oh! God's assistants, livelihood earners -
'N god's name, search other cheatable corners!
Or, hasten, make, all changes suitable!
Amend scriptures to fool the cheatable!
Crooks will invent new interpretations,
Scriptures with lot new interpolations;
Prostitutes of religion will bring out
To save god from death, lest they be kicked out!

ELEVEN MOWED DOWN BY '*RANBIR SENA*'!
MILITANT SLAIN BABIES AT *CRECHE* 'BEENA'!
Not chance, intention'lly god makes Man rash
To solve population explosion, 'n a flash!
It seems, god, savio(u)r 'f sinners only
FOR, SCOT-FREE DO ROAM THEY UNCAUGHT, PLAINLY!
Who created Satan, other than god
If god created everything here, mad!?
WHAT'S DIFFERENCE BETWEEN TERRORISTS 'ND GOD,
IF LIKE, MILITANTS, GOD TOO BEHAVES? SAD!

If god's creations are not defective
Why mentally retarded, inactive
Babies are born; why, come into being,
Handicapped, among, the creatures! Living?!

That's because 'f mutation 'n evolution
Not god's anger 'gainst Man's revolution!

God, painted with ability to cure
Blind 'nd deaf, and does bypass surgery fair
Err in creation!! To try, save god's face,
Insert in scriptures, changes - halt disgrace!
"I'm responsible only for the first
***Creations,"* let god say somewhere found best!**

EVEN IN THE FIRST, IN BRAIN CONSTRUCTION
He ERRED, THAT LED TO, THE MAN'S DESTRUCTION!

'Hermaphrodite' creation is a shame
To god's versatility, great fame!
Siamese-twins earns god very bad name;
Thus, proofs lot, god is playing dice game
As against Einstein's otherwise!
One needn't be genius in all, subject-wise!
When questions answerless, Man finds plenty,
Surrenders, 'nd finds asylum 'n god, handy!
Model 'f atom bombs 'nd del 'very systems,
Machine guns 'nd killing poisonous items
Plac'ng-before-lord-scientists too not rare!
'Garland'ng-veh'cles-common-man', we can bear!

Isn't chance, Siamese-twins born, where god reigns?
Or is it too a show of might 'f god's canes?!
Isn't chance, god failed give ' think'ng-ability'
' F, good alone t' Man's mental agility!?
If not chance, then knowingly god made Man -
Disobeying, to see punished, his fan!

If god created man, aren't sexual
Organs of both sexes too – it's factual -
His own creation, and if creation
His is perfect, isn't it a contradiction
Circumcision of organs genital
- Loose-skin, clitoris – hypothetical
Indeed, humiliating creator,
Making god a fool, by the Predator?!

Is there meaning any, in Man fighting Man
Killing each-other in the name of Fan
Of god, religion, something only in
Imagination exists; that's real sin!
<u>Can anyone kindly inform, which god</u>
<u>Asked to kill each other in the name 'f god?!</u>

Why, god created man, vulnerable
To, KILL by another?! RIGHT, valuable:
Instead keeping himself, as usable,
When, feels to take vengeance, suitable!?

Through centuries, many a war was fought
In the name of gods, and ravages brought!
Only Man's intelligence expanded,
His commonsense still at large stagnated!
Is god's inability to punish -
Those against him, prompts Man to accomplish
In holy wars, crusades, that give, license?!
What Man lacks is only his common sense!
GOD HIMSELF, WHEN FAVOURS THE REMISSION,
WHY, MAN BOTHERS OMISSION, COMMISSION?!

<u>Religion-less society, far better</u>
<u>Than present piety pretty bitter!</u>

The existence, of religions many
It-self, prove, Religions sound tinny!
All religions claim it is the real one.
And compete in conversion-syndrome-tone
To increase blind-followers, brain-wash-prone!
That's why, MEN themselves, get brutally torn!

The way things move to day, if, indicates
The future, god-terrorist, incarnates
Soon, to exterminate, existing gods
Of all religions, facing all the odds!
In process that, the terrorist-god great
Too would fall dead, MAN would triumph in the fight!

Can any religion claim, it's devoid
Of fanaticism?! Beliefs blind avoid
Reasoning! Logic-less misconception
Once thought to have great cheating perfection
Now, leads to innocent Man's destruction
Through the worst terrorism, peace's obstruction!

Committing the heinous crimes in god's name,
Terrorists do commit blasphemy, time
And again, armed to teeth, even babies
Butchered, terrorism, th' blasphemy-disease!

Creatures some, mad, may form suicide squads
To nourish themselves in the name of gods
Imaginary 'f fancied religion!
Leaders lot, sacrifice innocents prone
To beliefs blind, of SALVATION to one
Who lays down one's own life to save god, boon!
But, why those who call for acts such do not
Volunteer first, die as model for lot?!
Nonsense! Unless they live, who is to guide,
Innocents to 'death-trap': leaders do hide
Their thirst to live, to enjoy lovely life
Of power, pride and plenty, with girls lot! Wife?!
{"Catching fish, without wetting One's hand!"
Religious politics! Plenty, 'n this land!}
The law, or fear of others – not of god –
The hindrance that restricts mad killings broad!
Is't their god's inability to kill
Believers in gods other than theirs, fill
The Executioner's vacancy, by
Terrorists - god's assistants! Loyal?! Shy!
Terrorism is blasphemy, terrorists
Have no religion, real savage sadists,
To plunder and rape, they do create fright,
Actually committing blasphemy straight!

All permutation and combination
God permitted in sex; contradiction
Man's, means, *the creator uncivilized!*
Grateful priest's compliment well visualized!
Took pride great in his magnanimity
***Mahabali*'s known firm sincerity!**
Tempted Adam ate the fruit forbidden,
Disobeyed god, never knew cheat hidden!
Yearly happens death 'f pilgrims who visit
Mecca, *Sabarimala*,…….; can't resist!
You say, they are punished for wrong doings!
But, why wrong deeds are done by the beings?!

Only because, god gave them such a brain!
What right has god to have his own guns train
On creations his own, for his own fault
Of imperfect creations – great assault?!
What's the use 'f, praying god, sadist the great!?
Construction of places for worship straight
On such a god, existing only in
Imagination! Mad, chronic?! We sin.

> ***In between Man 'nd god's 'f great ability***

Film tunes not only do enthrall
Gods, but they even give them, lasting thrill!
Modernity influenced not only
Man, but gods too! Indian gods, now simply
Do like western musical instruments!
Isn't it wonder, gods like, sounds that shot sends!
If gun powder had not been invented
By man, gods who adore most, presented
Offerings of shots, would have really
Died 'f depression, inch by inch, mentally!
Gods must be grateful to mankind for this
Invention great that gives *them* the bliss!
It's gods' affinity towards the sounds
Of shots that make gods encourage the hounds,
The terrorists and the warmongers here
To engage in killing crimes everywhere!

What all these likes and dislikes of the gods
Reveal is, that all the characters 'f gods
Are fixed by man, not the ordinary,
But, priests, cheaters extraordinary!
Exploitation of the non-thinkers
By priests, began long back from th' time, 'hawkers'
Invented the god as the most suited
Assumption, to brainwash the Polluted!

"Be fruitful, and you multiply…" But, son
Disobeyed! Priests followed suit! What a fun!

God didn't curse his son! But, sex abuse by
Priests even forced, pope to condom act! Shy!
Sexual intercourse is a natural
Necessity, for the living rascal!
After giving such an urge to living
Beings, will god, ask them, for behaving
Otherwise?! Priests themselves framed the rules
To cheat the common man, as if they, fools;
To make masses believe, that the priests are
Making a very great sacrifice for
Serving the gods! But, with a far-sight, they
Created partners 'n the opposite bay
Too, to compensate! Oh! What cunningness!
Pretensions safe, The Practicals' firmness
Also safe! Sexual activities by
The priests did not start recently or by
Any yard stick, yesterday or the day
Before yesterday! It existed day
And night, but, contained within walls, from the
Very beginning! It didn't come to light! The
Setup had all ingredients within,
To guard secrets leak out, but to contain!
It's man's education, the villain great
Who digs them out in excavation straight!

Foot-path-gods appear all of a sudden,
Without hindrance any, without burden
Any, Public foolish embraces boon!
No quarrel among the gods newly born!
Lo! No religious animosity!
Now, most rewarding business entity!
Now and then the corporation '*Kalki*'
Demolishes, only to see lucky
Gods reborn the next morning!
No botheration, not any warning,
No paths spared, time wasted, traffic tilted!
Everything goes smoothly, hastily, knitted!

"The work of God, Who has made <u>everything</u>
<u>*Perfect***</u>….", but, in the same breathing**
"Surely, 'f the people, the unbelievers
Of, the Book, and the idol-worshippers,
Will stay forever in the Hell-fire! They
Are the <u>worst of creations</u>….", that's the 'bray'!
Statements contradictory in 'book', same!
If god's creations are <u>*perfect***</u>, it's shame**
There are '<u>worst</u>' too among his '<u>creations</u>'!

Mistakes such reveal, imaginations!
Content of 'books' are not at all something
Direct from the mouth of god, but tricking!
To cheat Man! <u>In words and deeds, can a god</u>
<u>Commit mistakes</u>?! All claims, nothing but, fraud!

Pity, almost all the news mediums
Give publicity for god, tediums
Here, Man faces everyday, everywhere.
If god is great why man makes all the care
To make Man aware of god, the great fuss!?
Newspapers, magazines, stop publishing guess
Works on god, though popular they may be!
Let TV channels too follow suit! Be
It, palmistry or numerology
'Alphabetology', astrology:
That part of astrology that deals with
Man's fortunes and misfortunes, birth and death,
Health and duration of life, prediction
Relating them, with stars 'nd planets' function!

<u>If anybody anywhere in world</u>
<u>Could prove, the deductions Thinker does hold</u>
<u>Are wrong, he would be happy to amend</u>
<u>Those lines in " THE FUTURE TEMPERAMENT."</u>

If Indian man-goddess' touch could make, limbs
Crippled young one, then in States, do even jumps
Why she goes on after, establishing
Hospitals, lot of money and time wasting?!
She could just kiss and cure patients all well!
Kissing herself, she prevents illness spell!

'TIMES' said "Judgment day of Turin Shroud"
By Walter Mocrone proves, "Turin shroud", fraud!
Chicago-based scientists exposed cheating
Behind, to keep religion's heart beating!

Though, '*Sasthra Parishad*' exposed beyond
Doubt, '*Makara-Vilakku*' is ill-found –
Means to cheat Man: light, not one heavenly,
But, lit by Man himself, at place lonely,
People are mad after it, as the truth
Didn't reach them, to get enlightened that's worth!

Exploited, the public remain, no end
Seen in near future! Means-some, Thinkers, find.

Services lot, Mother Teresa did
To humanity, we know, nothing hid!
To exploit the maximum, her greatness;
To increase much, the religion's brightness;
Invented the beneficiaries; great
Miracle one, to be hammered in straight
Into Mother, so as to 'elevate'
Her to the so-called 'Saint Hood', obsolete!
One too inferior elevating
One too superior – plotting cheating -
One who did service only to one's own
God, not any to humanity, known!
Is, just praying in life-luxurious,
Service to, humanity?! Humorous!

Revealed he, the former Health Minister,
West Bengal, 'nd Superintendent Doctor
Manju Murshed of state-run Balurghat
Hospital, that in nineteen ninety eight
Monica Besra was treated there, by
Doctors Biswas and Ranjan Mustafi!
Ultra sonograph, detected tumour
Ovarian, and subsequently for
T.B. treated; and nine months after,
Tumour disappeared. But, gains go to Mother!
Bengalies, Indians, even the whole world
Know well the great services rendered, 'nd told
By beneficiaries many, about
Benefactor, the great Mother! But, stout
The claim, a mere prayer did the wonder!
If Mother's prayer, could do that wonder
Why Monica continued the treatment?!
Why Mother had, hospitalized treatment?!
Devine-parasites, the registered cheats,
Usurp doctors' achievements: on it feasts!
Variety is attractive! Man easily
Cheatable! Religions use cunningly,
Idols, crosses, books, tombs, statues, pictures…
All are worship-able, says the scriptures!

Only, minimum three seconds flame, still,
On the body could inflict a burn swell.
So, moving a flame speedly, on body
Without burns can be done by anybody!
Small, small balls of ashes, hidden between
The fingers, on backside, could applause win!
Or the hands coated with a paste of ash

Dried, rubbed together; from nowhere brings ash!
Nobody can show miracle any
Who subjects to body check up, thorny!
Relating time ‘f birth, with signs ‘f ZODIAC,
Blunder! Health and fortune trounce almanac!
Moon is not a god! Men went there found it!
Planets, not presided by deities fit!

Wearing particular stone won’t give boons!
Numbers can’t bring you the bumper fortunes!
Luck ‘nd numbers are not at all out of tunes!
Colo(u)rs or alphabets do not decide
Progress or failure! Don’t attempt suicide!

YESTERDAY’S BELIEFS, TODAY’S SUPERSTITIONS
AND TODAY’S, TOMORROW’S TRANSFORMATIONS!
LET US BELIEVE IN LOVING EACH OTHER!
AND ABOVE ALL, IN HELPING EACH OTHER!
FOR THINGS GOOD, LOVE 'ND LOVE AND HELP EACH OTHER
THAT'S THE ONLY WAY TO LIVE TOGETHER
LET IT BE THE MAXIM OF THE FUTURE
ONLY MOTTO THAT WOULD GUIDE THIS CREATURE!
THE DEAR OF VIRTUES - NOT THE FEAR OF GOD -
WILL ONE DAY, UNITE ALL THE MEN, TOO BROAD!
NO RELIGION COULD GIVE YOU SALVATION!
HUMANISM*!* THAT’S THE ONLY RELIGION!

Oh! Youths of the world, you, if you do love
Humanity, it’s time too high to prove!
You all, who are fortunate to be free,
From the clutches of religious bruits, shriek ‘ee-rie’
To be not brain washed, consolidate your -
Efforts; strengthen secular feelings, dear.
Whatever be their known designation
Only by complete elimination
Of divine parasites, culmination
Could be attained ‘n MAN’S unification.

Contribute your might, to halt the backtrack
Of progressive tendencies, by the Crack.-
Brained religious fundamentalist Crooks’ -
Intentions! ALL’S prosperity, not jocks!

Eliminate the exploiters, the god’s
Assistants, in between man and gods,
Not by force or extreme brutal killing
But, by persuasion, and educating

Masses; medicine is to be taken
By patient, 'nd not by some preacher token!
Divine parasites, with tooth 'nd nail will fight,
Putting up resistance unknown, not straight!
For countering knave fundamentalism
For promoting our dear secularism
For eradicating vice terrorism
For encouraging our dear socialism

The content of this humble creation,
Thinker hopes, would help you to fruition.
Wherever religion any, is taught,
Should be duty bound, this ultimate 'hot'
Religion too is taught. Institutions
Educational, in constitutions
Add this as one subject, compulsory
To, benefit MANKIND, exemplary.

LET US HOPE, SENSE WOULD PREVAIL UPON PRIESTS:
VOLUNTEER AND QUIT THE CHEATING JOB FEATS,
AND, FOR LIVELIHOOD, SEARCH SOME JOB DECENT,
BEFORE PUBLIC FORCES THEM TO RECANT!

IT'S THE MOST APT TOOL IN GODMONGERS' HANDS!
RELIGIONS MAKE USE OF IT, IN TRANCE 'BANDS'!
'WHAT'S THE MEANING OF LIFE?!' **A GREAT QUESTION!**
AND, ON IT HANGS, PHILOSOPHERS' TENSION!
BUT, WHY EXPECT, MEANING FOR EVERYTHING
WHEN, NOTHING DO HAVE MEANING ANYTHING!
MEANING, IS SOMETHING, MAN GAVE FOR FEW THINGS!
DON'T WASTE LIFE, FINDING, MEANING FOR ALL THINGS!

LOVE, AND HELP THE NEEDY, AND SEE THEIR FACES!
THERE, YOU FIND MEANING OF LIFE THAT GRACES!

BUT, IN ACTION, THAT, YOU ARE EARNING MORE
THAN, WHAT YOU REALLY GIVE, EXTEMPORE!

ISN'T TIME TO REALIZE, MAN CAN'T SURVIVE
WITH RIVAL RELIGIONS MANY, CONNIVE
LIQUIDATION OF THE OTHER IN FULL!
ONLY, HUMANISM, THAT'S NOT HARMFUL.

You, requests, ponder points here raised; sinking -
Differences; enlighten man blinking.

{(One, gave an answer: - "In order to feel
The goodness, well, of what is really good,
God created 'BAD' too!" You bring up one

Bad one, to feel goodness of the other!

('Took earth under the sea, means, in deluge
The whole world was submerged under water!'

Religious, inject it, to save the god!

It is really a good commentary!
As told previously, to make changes
All suitable, in all books religious,
It is an example – good to follow!) }

Birth of unknown power!

Even from time immemorial, when
Through evolution, appeared in world, Man,
He is facing pressures from all kinds of
Un-opposable, natural but stiff
Calamities such as, thunder ‘nd lightning
Forest fire; deluge; earthquake – frightening!
All being detrimental, causing death;
Had to be always vigilant forthwith
To maintain constant watch, without rest!
That sight of disappearance; the lust
Of water, drowning one’s own relative
In front of own eyes, for ever captive,
Made Man fear the **ocean** – substantive!
Caught in accidental forest fire, One
Struggling, suffering pain great, fell dead soon
Gave, Him, another fear, now the **fire** boon!
Heat severe, stabbing, piercing skin; drying
Throat; quenchless thirst that forces believing
Persuaded the Man to fear the **sun** ‘nd bow!
Coldness much, difficult indeed to live!
Death, under the falling tree in storm, made
Man, fear the **wind** that’s the **air**, for its raid!
Nature did continue its cruelties
Thus Man began to fear, realities,
Nature too; though not forces like others!
By ‘nd by, fear changed to worship, that bothers!
Within no time, in transformation, it
Became staunch devotion, and to day, it
Is superstition that’s unparalleled!
Gods lot, such as; **sun, ocean, fire, air, world,**
Were born here and there, in this world; giving
The gods, human shape, Man blessed gods booming,
Though in the end; which even now, exists,
As it is, as evolution insists!

If Fear, god’s father; then Love, god’s mother!
Cow gives milk; earth, fruit-foods and other
Things; as a token of virtues received
Raised the status of world, to **goddess** perceived!
Crouching lions pouncing; flying attacking
Ferocious creatures; terrific lurking
Animals that may jump at, any time,
Created horror, in those people, time
And again; so, in order to oppose

Them, as they are, **Man gave birth to all those**
Gods, vicious too, the sincere devil gods!

Those, who invented the concept of '**gods**'
Are quite good to make capital out of;
Gave shapes to **new gods**; wrote, those men of
Great imaginative abilities,
Books exemplary; the mentalities
Of Man, metamorphosed those works, as books
Holy, that manifest to day, All's looks!
The intellectual wizards, snatched away
From Man, the religion; and found a way!
To cheat Man, they became god's attendants!
To cheat Man, they turned as god's assistants!
These self-styled assistants of god, even
Promoted those men earnestly striven
To reform Man, to the status of gods!
In the grip of the priest-hermit-tribe moods,
All gods turned their family property!

Some would say, "I believe in almighty
One, not the usual one, but a force,
A power that controls all that takes place
In this universe!" but, deduction that
Too is wrong; for, forces are quite a lot,
Not a single one; and what is seen here
Is nothing but, final result of, mere -
Interaction between them; that we see
Throughout, in the whole of this universe!

None of these forces have thinking power
Any; 'nd as no meaning whatsoever
Is there in sermonizing to them, why
This prayer; to whom, is this prayer; why
This meditation; what purpose do, this
Sacrifice, serve the Man; for whom is this
Offering; why the penance; in the names
Of these forces, why now too, killing crimes
And incendiarisms continue freely!
Why do, we, in the name'f something really
Do not exist worry; can't we somehow
Exult as equals; it's easy to bow
To the evils, to destroy anything!
It's very difficult to make something
Out of nothing, you remember, you Man!
((((((((((O))))))))))

Rights and duties!

At all times, Man, quite selfish: for him, his
Own 'nterests' preservation, emphasis!
At all times Man tried only to earn his
Own rights: he, not at all gave thought to his
Duties: even to the least, that's the truth!
When we think of human rights, there is dearth
Great: the elders gave importance only
To their own interests, always solely!

Parents have no right at all to hammer
Their interests, into The Young, for clam'r!
Killing the embryo, much better, than
Poisoning it, thus! You brute, selfish–Man!

To the rights of the infants, juveniles,
Youths; elders gave only value denials!
That is the reality, most naked!
One's own beliefs in god or One's crooked
Superstitions, One would hammer strongly
Into faultless tender minds, willingly:
That's what they always do, the guardians,
Young generation's rights violations!

Young generation's, rights-violation,
Not like the proved scientific-truths-vision;
Not like languages or mathematics;
Not like history, geography, logics,
Are taught for the benefit of the new
Generation, to sprout citizens new;
The supposition, that, something does not
Really exists, exists or exists not!

Either, don't inject into them, even
A single religion: otherwise, when
You inject; all the religions, even
Atheism is taught, is to be seen then!

When grown up, acquiring ability,
And mentally enough maturity,
To think well and make a self-decision,
Let them, themselves, make a right decision
What to do, to embrace one or reject!

Let the authorities all over, act
To see that action is taken against
All those who do commit offence against
The rights of the younger generations!
Let the Executives, the Parliaments,
The Judiciaries all over the world
And U.N.O., in unison be, bold!

The tendency of killing man, by man -
Himself, in the name of religion can,
In total be prevented with steps such.

Innovative invention - intelligent!

It's nothing but very same poison old
In bottle new with an attractive mo(u)ld!

The invention of new intelligent
Designer too, to cope with poignant
Eroding influence of god the great,
Which couldn't counter, popularity bright
Gained by Darwin's theory – anath'ma
To those who live selling god, their stigma!
Who designed intelligent Designer?
Answer quite clear, no need to ponder!
Intelligent Designer's existence
Too, attracts arguments the same, and hence
What were previously told, do apply.

Necessity, not at all to comply

With the rules and worship the Designer.
Middle-man between Man and Designer
Not at all required for worship any!

Man made Designer too can't fool any!
Do those born, hermaphrodite, Siamese-
Twins, mad, lame, deaf, dumb, blind, dead – all these
Wonders show Designer's intelligence?!
Two-headed born – Designer's brilliance!?
